

Stündenglass®

PRODUCT CATALOGUE 2023  
A U S T R A L I A

## **GRAVITY PERFECTED™**

Stündenglass® designs quality made products with innovative engineering for the highest quality smoking solution. The gravity driven method creates a highly enjoyable, rich and smooth taste regardless of the material being used. With our patented design, it is easy to take as little or as much smoke as you want. Use the true power of gravity for an entire chamber of smoke or pause it, pass, and share. Stündenglass® works great for individual use and makes for a memorable moment when hosting friends. Since the smoke is pushed to you, mouth to mouthpiece contact is unnecessary creating a highly effective and ritualistic experience.

# Stündenglass® + Stündenglass® **KOMPACT**™

COMPATIBLE WITH:

Hookah

Concentrates

Flower

Aromatherapy

Culinary

Mixology

## FEATURES:

**PERCOLATED WATER FILTRATION** heat is contained in an anodized aluminum and glass smoking chamber, resulting in cool, water filtered smoke at release.

**360° ROTATABLE ACTIVATION** uses kinetic motion activation, cascading water and opposing air flow technology to deliver the most powerful and unique smoke infusion experience.

**LARGE BURN CHAMBER** allows for longer smokes and easy loading.

**INDUSTRIAL GRADE** food safe materials with anodized metal construction, made with professionals in mind.

**MAGNETIC ATTACHMENTS** designed to fit the silicone hose compatible with both beverage and tray cloche.

**EASY MAINTENANCE** Durable globes are easy to assemble and clean.

# Stüdinglass Gravity Infuser
